Quick Start Guide

# *Smart Series DOAL Bracket*

*(HAWK MV-4000)*

P/N 83-9200058-04 Rev A

**Caution:** Be sure that all connections are secure BEFORE applying power. Power down BEFORE disconnecting cables.

**Important:** Specified wire colors apply to Omron Microscan cables. If non-Omron Microscan cables are used, it is the customer's responsibility to make sure the illuminator is connected per the specified connector pin numbers.

1. The DOAL 50, 75, and 100 lights use the same brackets with designated hole patterns for each. Secure the camera bracket to the camera using the two supplied screws as shown. Secure the DOAL bracket to the DOAL light using the two supplied screws as shown. See the detail to identify the correct holes for each DOAL light.

2. Mount the Camera and DOAL to the extruded rail using the four supplied screws and four T-nuts as shown.

   Note:
   The completed assembly is designed to be mounted by the extruded rail using the included T-nuts and corner brackets (not shown).

3. Install the plastic end caps to complete the assembly.
