WORLDWIDE EMC & PRODUCT SAFETY SERVICES

11 August 2008

Bob Johnson  
Microscan Systems Inc.  
1201 SW 7<sup>th</sup> Street,  
Renton, WA 98055

Dear Mr. Johnson,

Enclosed is the Hard Copy of the Test Report for the Scanner, Model MS-2, and the CD-ROM containing this Test Report in PDF Format. Please check it thoroughly for discrepancies and please contact us immediately if you have any questions or if you identify any problems.

This is an official copy of your Test Report, complete with the original Acme Testing Co. staff signatures. You should retain this Test Report as the official record of testing, as proof of compliance in the future. Please note that the EMC Directive requires that either you, as the manufacturer, or your authorized representative in Europe, keep this data for a period of ten (10) years after the equipment was first placed on the market. Please be aware that our internal controls require us to retain a historical copy of your Test Report on file for a three year period, after which our copy of your Test Report will be destroyed.

Please note that Acme Testing Co. has been validated by NIST and the European Union (EU) as a Conformity Assessment Body under the US-EU Mutual Recognition Agreement for the EU's 2004/108/EC EMC Directive (per Article 12 and Annex IV).

Please note that the FCC Verification Procedure Rules require that this Test Report must be retained by the Responsible Party for two years after the manufacturing of the product has been permanently discontinued [cf., 47 CFR Part 2 Section 2.938(c)]. Also, please note that the "Manufacturer's Statement of Responsibility" document [cf., 47 CFR Part 2 Section 2.931] must be signed (by an officer of your company who has the authority to sign binding contractual documents) in order for the FCC Authorization of your product to be valid. For your convenience, a copy of this document is included in Section 2 of the attached Test Report

Additionally, Acme Testing Co. is accredited by the American Association for Laboratory Accreditation (A2LA), and there are current Mutual Recognition Arrangements between the United States, Australia, Canada, and New Zealand. This means that the data contained in your Test Report is acceptable to the EMC regulatory authorities of these countries.

Thank you for your business and we look forward to being of service should you require testing services in the future.

Yours sincerely,

Harry H. Hodes  
Principal EMC Engineer  
President & CEO
