

**FOR IMMEDIATE RELEASE:**

## **Microscan Announces Acquisition of Label Vision Systems (LVS)**

**RENTON, WA, August 25, 2015** – Microscan Systems, Inc., an leader in industrial barcode reading and machine vision technology, confirmed today that it has purchased the trade and assets of Label Vision Systems (LVS) Inc., a pioneer in label inspection, print inspection, and barcode verification. LVS will be fully integrated into Microscan and the LVS name will become a brand within Microscan’s barcode label verification portfolio.

Established in Peachtree City, Georgia, in 1993, LVS has become a leading provider of label inspection, print inspection, and barcode verification products, solutions, and services for the life sciences and other industries. The company has experienced rapid growth recently and is expected to continue this trend as its technology enables companies to meet UDI (Unique Device Identification) legislation and to improve product traceability throughout the manufacturing supply chain. LVS’s technology, products, and solutions allow companies to inspect barcodes either off-line or in-line to achieve 100% compliance to UDI and GS1 standards. LVS is known for technology leadership and will benefit from being part of Microscan’s global network as it looks to accelerate growth outside of North America.

“This is a strategic move for Microscan,” says Scott Summerville, President of Microscan. “There are many advantages to acquiring the trade and assets of LVS. The leadership team at Microscan has a strong interest in developing and investing in LVS’s technology and products to support the market, which is expanding due to regulatory trends and corporate quality initiatives. We will have the opportunity to accelerate the expansion of LVS products and solutions into key international markets, and to leverage the substantial synergies between LVS and Microscan sales, technology, and operations.”

More information about LVS can be found at [www.lvs-inc.com](http://www.lvs-inc.com). For more information about Microscan, visit [www.microscan.com](http://www.microscan.com) or view Microscan’s full line of Barcode Verification Solutions including LVS brand verifiers at [www.microscan.com/products/barcodeverificationsolutions.aspx](http://www.microscan.com/products/barcodeverificationsolutions.aspx).

### **About Microscan**

Microscan is a global technology leader in precision data acquisition and control solutions serving a wide range of automation and OEM applications. Founded in 1982, Microscan has a strong history of innovation that includes the invention of the first laser diode barcode scanner and the Data Matrix symbology. Today, Microscan remains a technology leader in automatic identification and machine vision with extensive solutions for ID tracking, traceability, and inspection, ranging from basic barcode reading to complex machine vision inspection, identification, and measurement.

As an ISO 9001:2008-certified company recognized for quality leadership in the U.S., Microscan is known and trusted by customers worldwide as a provider of quality, high-precision products. Microscan is a

subsidiary of [Spectris plc](#), a leading supplier of productivity-enhancing instrumentation and controls.

The products and technologies provided by Spectris's businesses help customers improve product quality and performance, improve core manufacturing processes, reduce downtime and waste, and reduce time to market. Its global customer base spans a diverse range of end-user markets. Spectris operates across four business segments: Materials Analysis, Test and Measurement, In-line Instrumentation and Industrial Controls. Headquartered in Egham, Surrey, United Kingdom, Spectris employs over 8,000 people in more than 30 countries. For more information, visit [www.spectris.com](http://www.spectris.com).
