

## QX Hawk Release Notes

### Firmware Version 35-680001-27

#### Summary:

The QX Hawk is the world's first imager to be fully integrated with liquid lens technology. Bridging the gap between ease of use and performance, the QX Hawk features optional C-Mount lens design, a high-resolution modular optical zoom system, aggressive X-Mode decoding, and simple plug-and-play connectivity. The QX Hawk easily reads any barcode or 2D symbol, including challenging 2D direct part marks (DPM) in any environment, within seconds of installation.

| Feature  | Description  | Benefits   |
|--|--|--|
| New 12 Degree Lens and Modified 15 Degree Lens |  <p>Introduction of New 12 Degree Lens Option and Support for Modified 15 Degree Lens Option</p> | <ul style="list-style-type: none"> <li>Support for new 12 degree lens option</li> <li>Support for modified 15 degree lens specification</li> </ul>   |
| General Improvements and Bug Fixes             | Multiple Enhancements to Product Functionality   | <ul style="list-style-type: none"> <li>Improvements to liquid lens temperature compensation algorithm</li> <li>Improvement to liquid lens response time using an overdrive algorithm</li> <li>Fixed Reset, Reset/Save focus shift issue</li> <li>Fixed missing triggers issue</li> <li>Fixed &lt;LEARN&gt; lockup issue</li> </ul> |
| Usage Requirements                             | Must be used with DSP Software<br>35-630002-15   |  |

#### QX Hawk Features:

- High-performance auto focus industrial imager
- Quick Connect system
- X-Mode decoding
- Ethernet protocols
