

QX Hawk Release Notes

Firmware Version 35-680001-30

Summary:

The QX Hawk is the world's first imager to be fully integrated with liquid lens technology. Bridging the gap between performance and ease of use, the QX Hawk features optional C-Mount lens design, a high-resolution modular optical zoom system, aggressive X-Mode decoding, and simple plug-and-play connectivity. The QX Hawk easily reads any barcode or 2D symbol, including challenging 2D direct part marks (DPM) in any environment, within seconds of installation.

Feature	Description	Benefits
	CIP Generic Explicit messaging support	<ul style="list-style-type: none"> • Compatible with the QX-830 and QX-870 laser scanners • Serial communication over EtherNet/IP
General Improvements and Bug Fixes	Multiple Enhancements to Product Functionality	<ul style="list-style-type: none"> • Improvements to Daisy chain communication • Resolved problem with the image processing Database
Usage Requirements	Must be used with DSP Software 35-630002-16	

QX Hawk Features:

- High-performance autofocus industrial imager
- Quick Connect system
- X-Mode decoding
- Ethernet protocols
