

MICROSCAN®

AutoVISION 3.0.3 – Release Notes

Summary:

AutoVISION is machine vision simplified. The AutoVISION interface for the Vision HAWK, Vision MINI, and Vision MINI Xi is the easiest vision software available for applications of basic to mid-range complexity.

Important: While every attempt is made to ensure forward and backward compatibility, it is recommended that users test all application features to verify expected functionality when upgrading to new firmware.

Feature	Description	Benefits
General Improvements	Multiple Functionality and Performance Improvements	<ul style="list-style-type: none"> • Added support for cross-subnet connections. • Added support for FTP image logging in FrontRunner. • Bug fixes that deliver increased stability.
