

AUTO ID HANDHELD READERS

Product Line Card

Microscan's Auto ID Handheld Readers feature the latest technology for decoding 1D and 2D symbols. From tasks such as simple data tracking for inventory control to aggressive reading of the toughest direct part marks (DPM), we have a handheld solution for any track, trace and control application.

■ Mobile Hawk DPM Imager

Best in class decoding and advanced lighting to reliably read the most challenging low contrast direct part marks with only one touch.

Read Range	1D	2D	DPM	Wireless	IP Rating
0-2 inches 0-51 mm	●	●	●		IP54
1.6-7.7 inches 41-196 mm	●	●	◐	●	IP54
1.6-7.7 inches 41-196 mm	●	●		●	IP54
1.6-7.7 inches 41-196 mm	●	●	◐		IP54
1.6-7.7 inches 41-196 mm	●	●			IP54
1-14 inches 25-356 mm	●				IP20

■ HS-51X Wireless DPM Reader

Wireless decoding of linear and 2D symbols, including direct part marks.

■ HS-51 Wireless Barcode Reader

Designed for reading linear and 2D symbols with a wireless Bluetooth interface.

■ HS-41X DPM Reader

Decoding capabilities include high density linear and 2D symbols, including simple direct part marks.

■ HS-21 Barcode Reader

Economical choice for reading linear and high contrast 2D symbols.

■ HS-1 Linear CCD Scanner

Low cost linear barcode scanner.
