- Width:** 3.15" (80 mm)
- Height:** 0.75" (19.1 mm)
- Weight:** 7-oz. (200 g)

Quick Connect Interface Device

The QX-1 interface device distributes power, communications, and I/O, and simplifies installation of QX Platform products.

Featuring the Quick Connect system, this device includes four M12 Ultra-Lock™ connectors which provide quick and easy network setup and deployment, as well as flexible mounting options. With Quick Connect technology and IP65 industrial sealing, the QX-1 is a powerful accessory to complement the QX Platform.

PIN ASSIGNMENTS

Connectors 1 and 3 are 12-pin plugs, and Connector 2 is a 12-pin socket. All three connectors can be assigned to bus power and data. The connectors on the QX-1 interface device physically mirror those on the QX products, but they do not have explicit pin assignments. The QX-1 connectors take on the communications and power roles that are assigned to them.

Note: Detailed connector pinout information is available in QX Product User's Manuals.
